

Aswan Soner

WORK EXPERIENCE

MERN Stack Trainer

Company Name: Insta Dot Analytics

Duration: 07/2024 – 10/2024

- **Expert MERN Stack Training:** Delivered comprehensive training sessions on MongoDB, Express.js, React.js, and Node.js, guiding students from beginner to advanced levels in building full-stack web applications.
- **Curriculum Development & Mentorship:** Designed and developed course content, hands-on projects, and assessments, providing ongoing mentorship to students for real-world applications of the MERN stack.

Software Developer

- Working as a Software Developer at Kumbh Advertise, acquiring hands-on experience in building responsive and user-friendly web interfaces using HTML, CSS, TailwindCSS, JavaScript, React.js, and NodeJS.

VOLUNTEERING ACTIVITIES AND EXTRACURRICULARS

- Achieved "Top 5%" in Hackathon, showcasing problem-solving skills and teamwork.
- Completed web Development training, gaining hands-on experience in website design.

PROJECTS

OffCampus.com

- Designed and implemented user-friendly interfaces using HTML, CSS, JavaScript, NodeJS, ExpressJs, MongoDB.
- Developed a Resume creation module allowing users to easily generate professional resumes.
- Implemented job search functionality enabling users to browse and filter job listings based on various criteria.
- Integrated interview preparation resources, providing users with tips and practice materials for job interviews.

Kumbhadvertise

- Kumbhadvertise is a website designed for advertising opportunities at the Kumbh Mela, enabling businesses and individuals to reach a massive audience.
- Made with MERN stack technology (ReactJS, Node.js, ExpressJS, and MongoDB), it works smoothly and makes managing tasks simple.

Tech Masters

- Designed and developed a company website for "Tech Masters," showcasing services, expertise, and contact information to enhance online presence and client engagement.
- Built the website using ReactJS for the front-end, Node.js and ExpressJS for the back-end, and MongoDB for data storage, ensuring a responsive and dynamic user experience.
